Employees say their benefits package is extremely or very important to their:

**56%**

rank health benefits as one of the top-three most important aspects of looking for a new job.

## Top value-added services desired by employees

■ National average ■ Professional Services

Percentage ranking benefit first, second or third important.

The **2019-2020 Aflac WorkForces Report** is the ninth annual Aflac employee benefits study examining benefits trends and attitudes. Conducted by Kantar on behalf of Aflac, the study captured responses from 2,000 employees and 1,200 employers across the United States in various industries. Of the 2,000 employees who responded, 133 were members of the professional services industry.
